

MR. HUGHES TALKS TARIFF

Protection Necessary to Secure Our Prosperity After War

MUST HAVE IT TO MEET COMPETITION

President Wilson Will Speak in Chicago on October 19

New York, Sept. 27.—Mr. Hughes devoted himself in Ohio yesterday to a consideration of the tariff. In three speeches he pointed out why protection is necessary if we are to have permanent prosperity. Local politicians continue to make capital out of the visit of the nominee, Gov. Willis in particular showing himself by Mr. Hughes' side at every opportunity and even standing in front of him when he has found it possible. The presidential nominee heretofore has been singularly free from the public onslaught of the state politicians and the public has noted the fact with approval. After all is said and done this tour is in the interests of Charles Evans Hughes and not on behalf of the candidates for minor offices.

President Wilson motored to Princeton yesterday to vote in the New Jersey primaries. The ballot was a short one and the president was not long detained. He returned to Shadow Lawn to confer with Chairman McCormick and Judge Seabury, the Democratic candidate for governor of New York. It was announced yesterday that the president would speak in Chicago Oct. 19.

OHIO IS ALSO DOUBTFUL.

Moose Leaders with Hughes, but Position of Rank and File Is Uncertain.

Columbus, O., Sept. 27.—Ohio seems to be a doubtful state as to its vote on the presidency. Though the Progressive organization has dissolved and practically all the leaders of that party of four years ago have gone back into the Republican party, it is not certain that the rank and file of the Progressives have followed suit.

In a poll just made by newspapers in the central counties of the state, covering a little over 6,000 votes there were found 302 voters who indicated their intention of shifting from Roosevelt to Hughes and 189 who indicated their intention to switch from Roosevelt to Wilson.

There are about 1,200,000 qualified voters in Ohio. Pres. Wilson's plurality over Pres. Taft four years ago was 146,066. While the basis of the estimate here is small—only 6,000 out of 1,200,000—so far as it goes it shows a Republican net gain, that applied to the entire vote would indicate 100,000 less gain than the Republicans must make in order to get the electoral vote of that state.

CLASHES ALONG BOUNDARY.

Considered by Mexican-American Joint Commission.

New London, Conn., Sept. 27.—Co-operation between both civil and military authorities for the prevention of incidents along the border that result in international irritation was considered yesterday by the Mexican-American joint commission.

The American commissioners presented a list of border raids resulting in the loss of life or property on American soil.

The list was secured from the war department. Its presentation was made "for the purpose," according to the American commission, "of enabling the American commissioners to fulfill one of the purposes of their mission, namely to ascertain the causes of the border raids and to fix the responsibility therefor."

A similar list was submitted by the Mexicans.

The Mexicans indicated their opinion that the neutrality laws of the United States were inadequate and urged that they be so altered as to make it an offense for any American to participate in any way in a movement against a government with which the United States is at peace.

The joint commission decided yesterday to hold its last session here Thursday when it will adjourn until Monday to resume conferences at Atlantic City.

Six Drowned.

Oswego, N. Y., Sept. 27.—Six members of the crew of the steamer Roberval of Ottawa were drowned when the vessel foundered in Lake Ontario Monday nine miles from here. It was learned yesterday when three members of the crew reached here in an exhausted condition in the life boat.

CAPTAIN FORAN BLAMES GOVERN- MENT NEGLIGENCE

Style of Buoy Caused Wreck of Bay State, He Says—His Life Work Counts for Naught.

Portland, Me., Sept. 27.—"I stand here to-day a captain without a ship, a sacrifice to government negligence," declared Levi Foran, master mariner, in his first authorized statement yesterday, as he stood on the sloping deck of the passenger steamer Bay State, wrecked on the rocks off Cape Elizabeth, while under his command last Saturday.

"This little piece of paper," he said, tapping the commission in his pocket, "for which I have worked thirty-two years goes by the board. My life effort has been for nothing."

To the style of buoys in use in the vicinity of the wreck Captain Foran said he laid the responsibility for the disaster.

BASEBALL BRIEFS

Rube Benton of the Giants is pitching the best ball of his career just now. Plenty of work is what the big fellow needs.

Tinker was willing to lose three straight to the Giants last week in order to beat the Brooklyn team in Saturday's game.

Full practice for the Tufts college baseball squad started this afternoon under Coach Jack Slattery's direction. It is intended to have all the baseball men in college out for practice during the next three or four weeks in order to get a line on the best material in the college ranks. Capt. Leland, Saunders, Westcott and O'Mara are the only veterans left in college this year.

Walter Pipp now holds the long distance hitting record for the season in three cities. He hit over the high fence in Cleveland, the ball bounding off a building and across the street. At Detroit he hit a long fly over Ty Cobb's head and all the way to the center corner of center field. His home run in Sunday's game at Comiskey park in Chicago sailed over the right field barrier. No other player has hit one over there this year.

Walter Holke is a fixture at first base on the Giants' roster. McGraw says that Holke has a bright future before him in the National League.

Big Ed Pfeffer, Cheney and Marquard probably will be the choice of the Robins manager in the series against Philadelphia.

Larry Cheney of the Brooklyn team has fanned 156 men this year, as against 153 for Alexander and 150 for Marmas.

Eddie Collins has made an amazing climb in his batting average and now stands .314.

Moran is anxious to get another crack at the Red Sox. He says that the Phillies are in better condition than they were last season.

One of the prettiest catches made at the Giants' park this season was made by Dave Robertson in Saturday's game when he robbed Long of a home run by stretching out his left hand while on the run and speared the ball at arm's length. The play brought 25,000 fans to their feet in applause for the snappy little fielder.

Zimmerman has gone into business in the Bronx and is making a comfortable income aside from his baseball salary.

ALONG THE SIDELINES

Strict secret practice was held at the Tufts workout Monday afternoon when the varsity made play after play through the second string line. The showing of the varsity was a great improvement over the work by the team at any time before this season.

Dartmouth has made a few changes in its line of play since the game with New Hampshire State Saturday. Switzer's excellent running in Saturday's game has caused the coaches to shift him to a halfback instead of quarterback, where he played in Saturday's game. His speed and ability to dodge the ends make him a very valuable man in carrying the ball up the field.

The Tigers made their final practice at Lake Minniewaska a fast and snappy get-away for their return to Princeton before the opening game with Holy Cross next Saturday. The team meeting Holy Cross Saturday is much stronger than the team starting off last season's schedule. In the past two weeks they have made some remarkable gains in the rush line plays and have the forward pass down to perfection.

BEEF STOCK FIRM.

Little Change in Price at Brighton Stockyards.

Brighton, Sept. 27.—Little change was noted in prices at the Brighton stockyards yesterday, though the beginning of the Jewish holidays made ordinary and cheap beef stock go slowly.

Heavy beef cattle were in moderate supply though some good pairs were offered. Drovers Bags had one pair for which 9c was bid, and some very good cattle sold at 8@8½c. Light cattle brought 6½@7c, and average cattle 7½@8c. A. P. Needham brought down two fancy beef cows from Vergennes, Vt., weighing 1570 and 1560 pounds, shipping weight, which sold at 8½c. Top prices for the best of the usual stock were 6@6½c, with good cows at 5@6c, ordinary cows at 4½@5c and canners at 3½@4c.

Best bull sold at 6c but the bulk of the offerings went at 5@5½c, with ordinary stock at 4½@5c and bolognas at 4@4½c.

Fancy calves sold a bit better, some small lots going as high as 11@11½c, with best bunch lots at 9½@10½c and grassers and drinkers at 6@8c.

There was no change to note in hogs yesterday morning, some fancy selling as high as 11.40 cents, with the range for the best lots at 11.25 to 11.40 cents. Rough lots sold at 10½@11 cents.

Only a few sheep and lambs were noted in the yards, but prices were somewhat easier, especially for sheep. Best lamb sold at 8@10 cents with sheep at 5@7c.

Supplies of milk cows were heavy and all ordinary stock sold slowly. Prices ranged from \$35, the bottom for ordinary milkers, up to \$100 and even better for fancy milkers. The canvas covered shed for the accommodation of the cow trade is now nearly done and partly filled with cows. This is a temporary expedient only, as the state officials say that it will be impossible to properly inspect and test the cows there as soon as colder weather comes. Cow men are much disturbed over the failure of the railroad officials to take action in regard to the erection of the new barn. Some go so far as to advocate the removal of the whole trade to Watertown.

All For the Best.

"Why do the roses fade slowly away?" she inquired poetically.

"Well," replied the baldheaded young man, "when you think it over it's all for the best. It's more comfortable to have them fade slowly away than to go off all of a sudden, like a torpedo."

WORLD GRAIN CROPS.

Total of Wheat Estimated at 69.8 Per Cent for Last Year.

Ottawa, Ont., Sept. 27.—A cablegram received from the International Institute of Agriculture at Rome, Italy, gives the following estimates of this year's crop production:

The total production of wheat in Spain, England, and Wales, Ireland, Italy, Switzerland, Canada, United States, India, Japan and Tunis is estimated as 1,526,041,000 bushels, or 69.8 per cent of the production in the same countries last year and 92.4 per cent of their average production in the five years 1909-1913.

The production of rye in Spain, Italy, Switzerland, Canada and the United States amounts to 83,202,000 bushels being 118.4 per cent of last year's crop and 95.4 per cent of the five years' average.

The production of barley in the same countries as given for wheat, less India, is 476,583,000 bushels, 88 per cent of last year's crop, and 106.6 per cent of the five-year average.

The production of oats in the same countries as given for wheat, less India and Japan, is 1,728,750,000 bushels, 78.2 per cent of last year's production and 106.8 per cent of the five years' average.

LITERARY HOBBIES.

Even Railway Time Tables May Make Interesting Reading.

Radyard Kipling finds both pleasure and profit in reading the dictionary, and this habit largely accounts for his wonderful knowledge of words, his rich vocabulary and his newness in the use of words. He does not confine himself to the ordinary dictionary. He likes to look at a slang edition or a dictionary of a dialect.

There is a certain noble lord who loves nothing better than turning over the pages of Bradshaw, spying out all the ways to anywhere, all the branch lines and noting the railway stations with queer names. He is an adept in all railway lore and is often referred to by his brother peers when a moot point is raised about the iron roads of the world, for his knowledge extends from Charing Cross to New York via Yokohama.

But probably the queerest literary hobby was a certain doctor's predilection for reading an old file of the London Times. He said it made him better contented with things at present to see how things were muddled up twenty years ago. He found politicians just as quarrelsome and the comments just as caustic, and yet he concluded:

"Here we are, much as usual!"—London Answers.

HIS FATE A MYSTERY.

No One Knows Just How the Youngest of the "Signers" Died.

By a strange trick of fate Thomas Lynch, the youngest "signer" of the Declaration of Independence, was also the first one of these men to die.

Lynch was born in Prince George parish, S. C., Aug. 5, 1749. He was only twenty-six when the congress declared the independence of the colonies. Ill health compelled him to leave congress soon afterward, and near the close of 1779 he embarked on a vessel, intending to go to Europe for the benefit of his health.

The ship on which he sailed was never heard of afterward, and the fate of the youngest of the "signers" remains a mystery. It is supposed, of course, that the ship sank and that Lynch and all on board were drowned, but there were rumors that it was blown out of its course in a storm and wrecked on a lonely island of the West Indies and that some of the passengers and crew were saved.

Thomas Lynch was educated in England and was the son of a wealthy South Carolina planter.—New York World.

Willie's Fervent Wish.

Papa was sitting by the table reading his evening paper. Generally, when he came across an item of interest, he read it aloud to mamma.

Little William, a typical "little pitcher with big ears," as a rule was not in the least concerned about the items his father read aloud. But the other evening he was mightily interested.

"I see, ma," said papa, "that the fishermen around Cape Cod have gone out of the whaling business and—"

Up spoke William promptly.

"Gee whiz, papa, I wish you was a Cape Cod fisherman!"—Chicago Journal.

In Hot Water.

Two citizens were toddling up the street one day recently, earnestly engaged in exchanging their experiences with dyspepsia.

"And did you ever try the hot water cure?" asked the thin one.

"Did I?" repeated the melancholy one, who had also something of the saving grace of humor in his makeup, as many melancholy men have. "I should say I did. Why, man, I've been married fifteen years."

NO RELIEF FOR POLAND

Austria Answers President as to Concessions Made

IN LINE WITH OTHER REPLIES

Letter Comes to U. S. from Emperor Francis Joseph

Washington, D. C., Sept. 27.—The reply of Emperor Francis Joseph of Austria-Hungary to the identical personal note sent by President Wilson to heads of belligerent nations, appealing for concessions to permit shipment of relief supplies to Poland, was received yesterday at the state department. It was forwarded to the president at Shadow Lawn without being opened.

All of the rulers addressed have replied except the emperor of Russia. In none of the letters, state department officials understand, is there any proposal likely to make possible immediate Polish relief operations.

ITALIANS HOLD PLACES AGAINST VIOLENT BLOWS

They Keep Positions Near Summit of Monte Sief—Prevent Consolidation on Monte Cimone.

Rome, Sept. 27.—Violent counterattacks made by the Austrians on positions the Italians had taken near the summit of Monte Sief, in the upper Cordevole valley, have been repulsed, the war office announced yesterday. The statement follows:

"In the Astico district the incessant barrage fire maintained by our artillery has rendered futile the enemy's attempt to consolidate the position we evacuated on the summit of Monte Cimone.

"At the head of Vanoi valley the enemy's artillery continued unsuccessfully throughout Monday to shell our new defenses northeast of Monte Cauriol.

"In the upper Cordevole, counterattacks delivered with increasing violence against the position we took on Saturday towards the summit of Monte Sief were decisively repulsed with heavy losses to the enemy.

"On the remainder of the front there have been only artillery action. Our batteries caused explosions and fires at Pescosta and Corvara, in the Gader valley, and the enemy shelled the suburbs of Gorizia.

"Hostile aeroplanes dropped bombs on Grigno and Cleson, in the Brenta valley. One man was killed and a few men were wounded."

The Young Men's Favorite Suit

There is every reason to call Varsity Fifty Five the young men's favorite. It is made by

Hart Schaffner & Marx

and hundreds of men in Barre know that they know how to style and wear value as few makers do.

The name Varsity Fifty Five covers a number of variations; and a number of styles—all stylish and all correct.

PROGRESS

Good Public Service and the Men Back of the Service

4—The New Business Department

Under the direction of James B. Ryan, Power Agent, comes the important work of securing and demonstrating (after proper investigation) new devices and appliances which make it possible for people to do their work, whether in the Home, Office or Workshop, more efficiently and more economically.

Mr. Ryan's department will not handle any devices which, after searching test, do not measure up to the high standard of Tenney Service. Conversely, his department aims to keep pace with the latest advanced thought and practices, that they may serve their customers better.

In this department, as in others, Service is the keynote. Inquiries or complaints will have the immediate, courteous and effective attention of Mr. Ryan or one of his associates.
